DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 26 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: Kim et al., in the US Patent Application Publication US 2004/0213986 A1 substantially discloses the claimed invention. However, Kim fails to disclose, teach, or suggest "exposing portion of the layer to radiation to change the solubility of portions of the organosilicate material with respect to the solvent; selectively removing more soluble portions of the layer to generate a relief pattern." Kim exposes the organosilicate material to UV radiation and the *porogens* become more soluble and hence are evaporated. Kim is silent in "selectively removing more soluble portions of the layer to generate a relief pattern." Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
